

Two high performance solutions from one unique supplier

- World leading technology in flexo printing
- World leading slitting/rewinding technology
- Exceptional productivity & reliability
- Bobst Group Service & Support

Fischer & Krecke
14S-8 flexo press

When it comes to flexo printing technology, Fischer&Krecke is always one step ahead! The new, revolutionary 'smartGPS' (Graphic Positioning System) dramatically reduces waste of materials, time and money. It also improves process consistency, productivity and profitability.

Titan SR8
cantilever slitter rewriter

For a Fischer & Krecke flexo press, there is no better partner than a Titan slitter rewriter. Renowned worldwide for its advanced technology, robust reliability, outstanding performance and high productivity, Titan is acknowledged as the world leader in its class.

Both solutions include complete technical support through Bobst Group's global customer service operations.
